

Nova Scotia Wheelhouse Safety Logbook

On behalf of the Nova Scotia Fisheries Sector Council and Fish Safe NS we are happy to provide you and your crew with the Wheelhouse Safety Logbook.

This Logbook is a resource for you to use aboard your boat and will provide you an opportunity to record information like when you provide on board familiarization and training, conducting safety drills, and a maintenance and general log. In addition, this Logbook will be a great reference guide for many of the items for staying safe aboard your boat.
